Summary

Technical Lead with 5+ years of software delivery experience and a hands-on background in Flutter development and system analysis. Focused on leading implementation from requirements and planning through execution, technical follow-up, release readiness, and delivery. Experienced in structuring work, clarifying technical requirements, guiding architecture and implementation decisions, tracking progress and blockers, and supporting production launches across mobile and web products.

Experience

Tech Lead

Lumi.AI • Free Zone, Damascus
03/2025 - Present

- Lead end-to-end technical execution across multiple software products, translating approved requirements into implementation plans, priorities, and deliverables and following work through production delivery.
- Track implementation progress, pending items, blockers, and technical risks while keeping delivery aligned with project scope and release priorities.
- Guide architecture and implementation decisions, follow technical consistency across features, and support release readiness for mobile and web products.
- **SAVI App:** Led and contributed to delivery of a production e-commerce application with advanced filtering, search, FCM notifications, wishlist functionality, and real-time order tracking.
- **Qanun-ai App:** Supported production launch and delivery follow-up, including notification-system improvements and application structure based on Clean Architecture.
- **PatternStock App:** Architected the application using Clean Architecture with MVVM, built dynamic custom UIs, integrated Stripe payments and FCM notifications, and implemented offline caching.

Flutter Developer and System Analyst

AWA Real Estate Company • Remote
01/2025 - Present

- **AWA App:** Built and delivered a full-featured real-estate listing application with offline caching, local data sourcing, push notifications, OTP authentication, Fatora, Syriatel Cash and MTN Cash payment integrations, and custom animations.
- Combined hands-on development with system-analysis work to keep application flows and implementation aligned through delivery and market publication.

Flutter Developer

K&K Group • Free Zone, Damascus
07/2023 - 03/2025

- **KK ORDERS App:** Independently developed a Flutter and Firebase mobile application for managing and organizing fabric order processing.
- **KK GROUP WAREHOUSE Dashboard:** Built a responsive Flutter web dashboard for fabric and goods inventory management, connecting warehouses with central management and sales outlets.
- **ZIKZAK App:** Delivered a Flutter and Firebase mobile application for customer clothing orders within one and a half months.
- **KK GROUP E-COMMERCE App:** Contributed to an e-commerce application for showcasing, selling, and promoting company products.

Systems Analyst

K&K Group • Free Zone, Damascus
12/2023 - 03/2025

- Analyzed and documented system requirements, prepared SRS documentation, modeled business processes with UML diagrams, and supported development teams from requirements through implementation.

Technical Skills

Leadership & Delivery: Implementation planning, task breakdown, execution follow-up, progress tracking, blocker and risk follow-up, delivery coordination, release readiness, production launch follow-up

Architecture & Development: Flutter, Clean Architecture, MVVM, MVC, BLoC, Firebase, Firebase Cloud Messaging, offline caching, OTP authentication, Stripe and e-payment integrations

Analysis & Documentation: Requirements analysis, SRS documentation, UML activity diagrams, sequence diagrams, class diagrams, entity-relationship diagrams, system architecture, data flows

Education

Information Technology Engineering / Software Engineering

Damascus University • Damascus
Graduated 08/2024

Specialization: Software Engineering and Information Systems
